## / EDUCATION

>> BTech(CSE), Vardhaman College of Engineering, Hyderabad  
2016 - 2020, GPA - 9.36

## / EXPERIENCE

### >> Software Engineer

ValueLabs | July 2020 - present

#### </> Project - Achievers

Achievers is an employee recognition platform based on LAMP stack technology where individuals and teams are recognized by managers and colleagues for their performance. This platform also shares online shopping and many other features.

- Developed a new analytics dashboard for individual employee recognitions and reviews.
- Developed new UI features for the revolut card system using React, PHP.
- Worked on integrating achievers platform with an organization's social media platform to directly recognize their colleagues.

### >> Trainee Software Engineer

ValueLabs | Sep 2019 - March 2020

- Majorly worked on MySQL queries to fetch user data, recognitions, achievements for developing an analytics dashboard.
- Supported for code and query optimizations to increase performance and accurate results.
